# Searching with Destiny Quest®

There are three search methods in Destiny Quest: **Simple**, **Advanced**, and **Visual**.

Simple Search

The **Find** field enables patrons to perform simple keyword searches and can be found at the top of every screen in Quest.

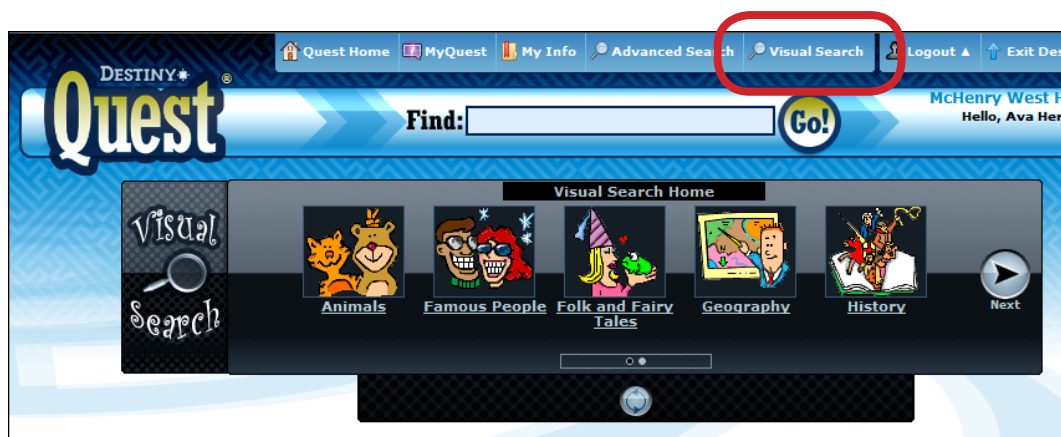

Advanced Search

The **Advanced Search** tab allows patrons to narrow or expand searches by using the **Show me everything that has**…, **But I don't want**…, and **Limit my search to**… fields.

Visual Search

Visual Search displays five group buttons at time. Selecting the **Next** button advances the next five **Visual Search** icons.

Clicking on a **Visual Search Group** button displays search buttons or takes you directly to the **Search Results** page.

Search Results

The **Search Results** list displays up to 10 titles per screen. Click the **Next** arrow button to view more results in the list.

Narrow your search by selecting from limiters in the **Narrow Your Search** box on the left side of the screen (Ex. Author, Subject, Series, Genre).

The **Web Sites**, **One Search™**, and **Digital Resources** subtabs available on the **Simple Search** results screen perform the same functions in Destiny Quest® as they do in Destiny Classic.

The right hand corner or each title record shows the availability of the item as **IN**, **OUT**, **ASK** or **LOST**.

Title Details

Click on the title link to open the **Title Details** window.

Select the **Shelf Browse** link to browse related titles shelved next to the selected title. Use the slide at the bottom of the window or the Previous and Next buttons to view books to the left and right of the title as they appear on your library's shelves.

The tabs on the **Title Details** screen provide additional information about the title, reading program data, awards, and patron reviews.

Logged in patrons with the appropriate permissions can place hold requests, add a book's title to a resource list, make a wish request for a book to be added to the school's collection, or recommend it to another patron by selecting the appropriate button from the availability section of the window.
